ELLA0105 ELL Academic 5

COURSE DESCRIPTION

The Full-time Academic Program teaches language, settlement, and employment skills in the context of themes relevant to learners. This 15-week course aligns with the Canadian Language Benchmarks (CLBs) and focuses on reading, writing, listening, speaking. Academic 5 is part of Stage Two of the CLBs and corresponds to intermediate English proficiency. In this stage, learners practice skills required for more in-depth participation in a greater variety of situations. Learners in Stage Two can function in most familiar social, educational, and workplace situations, as well as some less predictable contexts. Learners exit the course with a CLB5. Instruction is learner-centered, task-based, and stresses community, education, and work-related language tasks. The program follows Portfolio-Based Language Assessment (PBLA) practices, focusing on what learners can do in English. Learners' progress is assessed by performance on a series of real-world tasks completed throughout the term and collected in their portfolio.

ASSESSMENT

COURSE LEARNING OUTCOME(S)	ASSESSMENT	WEIGHT
1-7	Portfolio-Based Language Assessment (PBLA) is utilized to assess and evaluate learners' progress in language learning. PBLA facilitates assessment for learning by documenting students' language learning over time, highlighting strengths and challenges, and providing frequent opportunities for feedback, reflection, self-assessment, and revision. A combination of formative and summative assessment is used to monitor learner progress against course outcomes. Testing occurs throughout the term. Instructor observations, anecdotal notes, marked work, portfolio assessment and summative testing all factor into the CLBs assigned at term end.	P/F

Important: For details on each assignment and exam, please see the Course Offering Information.

PERFORMANCE STANDARDS

A grade of P is required to pass this course. Learners may be required to pass this course in order to progress in the program or to meet specific program completion requirements.

Completion of course work and adherence to attendance policy determine final grade.

Please consult with the program area or the Bow Valley College website for further details.

ADDITIONAL INFORMATION

The Full-time Academic Program is funded by Immigration, Refugees and Citizenship Canada (IRCC) as part of the Language Instruction for Newcomers to Canada (LINC) program. LINC is integral to IRCC's mandates of immigrant settlement and employability. The focus of the LINC program is providing the communicative and intercultural competence immigrants need to successfully integrate into Canadian society and secure employment.

The Canadian Language Benchmarks (CLBs) include four strands, listening, speaking, reading, and writing. To go up a CLB in a strand, learners must successfully complete most of the criteria on the assessed tasks in that strand. To progress to the next level, your CLBs must go up in at least three strands. For example, if your CLBs go up in three or four strands, you may be eligible to progress to the next level. However, if your CLBs go up in two or fewer strands, you will continue in the same level next term.

Additional information may be found in the Course Offering Information or in Brightspace.

Online Exam Proctoring:

Examinations for this course may require proctoring through an online proctoring service. Online proctoring enables online exam taking within a controlled and monitored environment, thereby enhancing academic integrity. Online proctoring may occur through a variety of methods, including but not limited to:

a. live online proctoring where a remote invigilator authenticates identity and observes completion of an exam using specialized software and recordings;
b. automated proctoring where the exam session is recorded and AI (artificial intelligence) analyzed;
c. browser lockdown that limits access to other applications, websites, copying, printing, screen capture and other functions; or
d. a combination of both live/automated proctoring and browser lockdown.

Course instructors will review recordings, analyses, and data obtained through online proctoring for academic integrity infractions. It is the student's responsibility to meet the technical, software, location, and identity verification requirements necessary to enable online proctoring.

Further details of these policies are available in the Academic Calendar and on the Bow Valley College website, bowvalleycollege.ca.

Learners are encouraged to keep a copy of this course outline for future reference.
