MMPR9108 Capstone Project

COURSE DESCRIPTION

Through the application of the key learning elements from the previous seven MMP modules students apply the principles, concepts and techniques to a final project. Participants will select an integrated project that demonstrates alignment of business drivers and improvement opportunities with managing and maintaining assets, equipment, processes, and personnel. The project must address an issue in which the participant is both familiar and can be applied (or) implemented in an actual workplace, ideally that of the participant. A primary objective of a Capstone project is that on successful completion, each participant will have the relevant and documented information and possess the confidence to present it to management. The project selected can be business focused such as development of or improvement to their maintenance strategy or maintenance business processes, or resolution of a significant maintenance issue, or the project can have a technical focus such as justification of replacement or upgrade of equipment, purchase of improved diagnostic equipment, etc. All previous modules are prerequisites for this course. The assessment of the Capstone projects is intended to qualify participants for obtaining their MMP designation. MMP Capstone projects must be developed as individual projects unless the instructor allows an exception for a small group project completed by two (2) participants from the same organization

REQUISITES	Complete the following courses: • MMPR9101 - An Integrated Strategy for Maintenance Management (0) • MMPR9102 - Production and Operations Management for Maintenance Manager (0) • MMPR9103 - Human Resources Management for Maintenance Manager (0) • MMPR9104 - Financial Management for the Maintenance Manager (0) • MMPR9105 - Developing & Implementing Maintenance Tactics (0) • MMPR9106 - Maintenance Work Management (0) • MMPR9107 - Computerized Maintenance Management Systems (0)
EQUIVALENTS	None
CREDITS	0
HOURS	30
ELIGIBLE FOR PLAR	No

COURSE LEARNING OUTCOMES

Bow Valley College is committed to ensuring our graduates can demonstrate their abilities in key areas that will make them effective citizens and encourage their development as lifelong learners. In addition to the discipline-specific skills that learners acquire in their programs, the College has identified ten learning outcomes.

College-Wide Outcomes:

1. Communication
2. Thinking Skills
3. Numeracy and Financial Literacy
4. Working with Others
5. Digital Literacy
6. Positive Attitudes and Behaviours

7. Continuous Learning
8. Health and Wellness Awareness
9. Citizenship and Intercultural Competence
10. Environmental Sustainability

#	COURSE LEARNING OUTCOME(S)	COLLEGE WIDE OUTCOMES SUPPORTED
1	Assess the current state of maintenance management conditions/situations in a real-world environment.	1,2,3,4,5,6,7,8,9,10
2	Propose and financially justify an improvement strategy that incorporates principles, tools, techniques, and concepts as defined in MMP modules 1-7.	1,2,3,4,5,6,7
3	Document their proposal in a 'project business case' documentation format. (MS Word document).	1,2,3
4	Summarize and present the project concisely in a presentation format. (MS PowerPoint)	1,2,3

COURSE MODULES AND SCHEDULE

**Course schedule subject to change, depending on delivery mode and term of study. For exact dates, please consult the Course Offering Information in Brightspace.*

WEEK/HOURS	MODULES
Session 1	Requirements and expectations of the capstone project assignment and discussion of potential project topics. After the session, individuals (or pairs) work on their project selection and have it approved by the instructor before session 2. Best practices presentation.
Session 2	Each participant (even if working in pairs) must submit both their project business case and presentation into the college assignment software (typically the Friday before the last class), Individual (or pair) presents their final PowerPoint summary to the class.

ASSESSMENT

COURSE LEARNING OUTCOME(S)	ASSESSMENT	WEIGHT
1,2,3,4	Project Submission	80%
1,2,3,4	Module 1 – Module 7 Key Learnings Application	15%
1,2,3	Presentation	5%

Important: For details on each assignment and exam, please see the Course Offering Information.

PERFORMANCE STANDARDS

A minimum grade of D is required to pass this course. However, a program may require a higher grade in this course to progress in the program or to meet specific program completion requirements.

Please consult with the program area or contact the program chair for further details. A minimum Grade Point Average of 2.0 is required for graduation.

GRADING SCHEME

Grade	Percentage	Grade Point	Description
A+	95-100	4.0	Exceptional: superior knowledge of subject matter
A	90-94	4.0	Excellent: outstanding knowledge of subject matter
A-	85-89	3.67	
B+	80-84	3.33	
B	75-79	3.0	Very Good: knowledge of subject matter generally mastered
B-	70-74	2.67	
C+	67-69	2.33	
C	64-66	2.0	Satisfactory/Acceptable: knowledge of subject matter adequately mastered
C-	60-63	1.67	
D+	57-59	1.33	
D	50-56	1.0	Minimal Pass
F	Less than 50	0.0	Fail: an unsatisfactory performance

REQUIRED LEARNING RESOURCES

All texts and course notes from Modules 1 – 7

Additional learning resources may be found in the Course Offering Information or in Brightspace.

ADDITIONAL INFORMATION

This course is 100% project assignment based. There is no exam.

There are no extensions. Exceptions may be considered with proper documentation.

Your instructor will provide feedback on draft submissions and session submissions throughout this course.

Additional information may be found in the Course Offering Information or in Brightspace.

ACADEMIC ACCOMMODATIONS

Learners with a disability (learning, physical, and/or mental health) may qualify for academic and exam accommodations. For more information, or to apply for accommodations, learners should make an appointment with Accessibility Services in the Learner Success Services (LSS) Department. Accessibility Services can also assist learners who may be struggling with learning but do not have a formal diagnosis. To make an appointment visit LSS on the first floor of the south campus or call 403-410-1440. It is the learner's responsibility to contact Accessibility Services and request academic accommodations. For more information, please visit our website at http://www.bowvalleycollege.ca/accessibility.

INSTITUTIONAL POLICIES

Bow Valley College is committed to the highest standards of academic integrity and honesty. Learners are urged to become familiar with and uphold the following policies: Academic Honesty (500-1-7), Learner Code of Conduct, Procedures and Guidelines (500-1-1), Learner Appeals (500-1-12), Attendance (500-1-10), Grading (500-1-6), Academic Continuance and Graduation (500-1-5), and Electronic Communications (300-2-13). Audio or video recording of lectures, labs, seminars, or any other teaching and learning environment by learners is allowed only with consent of the instructor as part of an approved accommodation plan. Recorded material is to be used solely for personal study and is not being used or distributed without prior written consent from the instructor.

Turnitin:

Students may be required to submit their course work to Turnitin, a third-party service provider engaged by BVC. Turnitin identifies plagiarism by checking databases of electronic books and articles, archived webpages, and previously submitted student papers. Students acknowledge that any course work or essays submitted to Turnitin will be included as source documents in the Turnitin.com reference database, where it will be used solely to detect plagiarism. The terms that apply to a student's use of Turnitin are described on Turnitin.com.

Online Exam Proctoring:

Examinations for this course may require proctoring through an online proctoring service. Online proctoring enables online exam taking within a controlled and monitored environment, thereby enhancing academic integrity. Online proctoring may occur through a variety of methods, including but not limited to:

a. live online proctoring where a remote invigilator authenticates identity and observes completion of an exam using specialized software and recordings;
b. automated proctoring where the exam session is recorded and AI (artificial intelligence) analyzed;
c. browser lockdown that limits access to other applications, websites, copying, printing, screen

capture and other functions; or

d. a combination of both live/automated proctoring and browser lockdown.

Course instructors will review recordings, analyses, and data obtained through online proctoring for academic integrity infractions. It is the student's responsibility to meet the technical, software, location, and identity verification requirements necessary to enable online proctoring.

Further details of these policies are available in the Academic Calendar and on the Bow Valley College website, bowvalleycollege.ca.

Learners are encouraged to keep a copy of this course outline for future reference.
