SCN2231 Biology 20

COURSE DESCRIPTION

This is an Alberta Education credit course. This course analyzes energy and matter exchange in the biosphere, ecosystems and population change, photosynthesis and cellular respiration, and human systems. This course prepares students for Biology 30.

REQUISITES	Earned a minimum grade of C in each of the following: • SCN1270 - Science 10 (5)
EQUIVALENTS	Completed the following: • BIOL0201 - Biology 020 (5)
CREDITS	5
HOURS	100
ELIGIBLE FOR PLAR	No

COURSE LEARNING OUTCOMES

Bow Valley College is committed to ensuring our graduates can demonstrate their abilities in key areas that will make them effective citizens and encourage their development as lifelong learners. In addition to the discipline-specific skills that learners acquire in their programs, the College has identified ten learning outcomes.

College-Wide Outcomes:

1. Communication
2. Thinking Skills
3. Numeracy and Financial Literacy
4. Working with Others
5. Digital Literacy
6. Positive Attitudes and Behaviours
7. Continuous Learning
8. Health and Wellness Awareness
9. Citizenship and Intercultural Competence
10. Environmental Sustainability

#	COURSE LEARNING OUTCOME(S)	COLLEGE WIDE OUTCOMES SUPPORTED
1	Explain the constant flow of energy through the biosphere and ecosystems.	1, 2, 4 – 10
2	Explain the cycling of matter through the biosphere.	1, 2, 4 – 10
3	Explain the balance of energy and matter exchange in the biosphere, as an open system, and explain how this maintains equilibrium.	1, 2, 4 – 10
4	Explain that the biosphere is composed of ecosystems, each with distinctive biotic and abiotic characteristics.	1, 2, 4 – 10
5	Explain the mechanisms involved in the change of populations over time.	1, 2, 4 – 10
6	Relate photosynthesis to storage of energy in organic compounds.	1, 2, 4 – 10

7	Explain the role of cellular respiration in releasing potential energy from organic compounds.	1, 2, 4 – 10
8	Explain how the human digestive and respiratory systems exchange energy and matter with the environment.	1, 2, 4 – 10
9	Explain the role of the circulatory and defence systems in maintaining an internal equilibrium.	1, 2, 4 – 10
10	Explain the role of the excretory system in maintaining an internal equilibrium in humans through the exchange of energy and matter with the environment.	1, 2, 4 – 10
11	Explain the role of the motor system in the function of other body systems.	1, 2, 4 – 10

COURSE MODULES AND SCHEDULE

**Course schedule subject to change, depending on delivery mode and term of study. For exact dates, please consult the Course Offering Information in Brightspace.*

WEEK/HOURS	MODULES
Week 1	Energy & Matter in the Ecosystem
Week 2	Energy & Matter in the Ecosystem
Week 3	Energy & Matter in the Ecosystem
Week 4	Ecosystems & Populations
Week 5	Ecosystems & Populations
Week 6	Ecosystems & Populations
Week 7	Ecosystems & Populations
Week 8	Human Systems
Week 9	Human Systems
Week 10	Human Systems
Week 11	Human Systems
Week 12	Human Systems
Week 13	Human Systems
Week 14	Review & Final Assessments
Week 15	Review & Final Assessments

ASSESSMENT

COURSE LEARNING OUTCOME(S)	ASSESSMENT	WEIGHT
1 - 11	Activities (Quizzes, Labs, Reports)	27%
1 - 11	Unit Tests	43%
1 - 11	Final Assessment	30%

Important: For details on each assignment and exam, please see the Course Offering Information.

PERFORMANCE STANDARDS

A minimum grade of D is required to pass this course. However, a program may require a higher grade in this course to progress in the program or to meet specific program completion requirements.

Please consult with the program area or contact the program chair for further details. A minimum Grade Point Average of 2.0 is required for graduation.

GRADING SCHEME

Grade	Percentage	Grade Point	Description
A+	95-100	4.0	Exceptional: superior knowledge of subject matter
A	90-94	4.0	Excellent: outstanding knowledge of subject matter
A-	85-89	3.67	
B+	80-84	3.33	
B	75-79	3.0	Very Good: knowledge of subject matter generally mastered
B-	70-74	2.67	
C+	67-69	2.33	
C	64-66	2.0	Satisfactory/Acceptable: knowledge of subject matter adequately mastered
C-	60-63	1.67	
D+	57-59	1.33	
D	50-56	1.0	Minimal Pass
F	Less than 50	0.0	Fail: an unsatisfactory performance

REQUIRED LEARNING RESOURCES

Inquiry into Biology

Additional learning resources may be found in the Course Offering Information or in Brightspace.

ADDITIONAL INFORMATION

A grade of C- is required to move to the next course.

Additional information may be found in the Course Offering Information or in Brightspace.

ACADEMIC ACCOMMODATIONS

Learners with a disability (learning, physical, and/or mental health) may qualify for academic and exam accommodations. For more information, or to apply for accommodations, learners should make an appointment with Accessibility Services in the Learner Success Services (LSS) Department. Accessibility Services can also assist learners who may be struggling with learning but do not have a formal diagnosis. To make an appointment visit LSS on the first floor of the south campus or call 403-410-1440. It is the learner's responsibility to contact Accessibility Services and request academic accommodations. For more information, please visit our website at http://www.bowvalleycollege.ca/accessibility.

INSTITUTIONAL POLICIES

Bow Valley College is committed to the highest standards of academic integrity and honesty. Learners are urged to become familiar with and uphold the following policies: Academic Honesty (500-1-7), Learner Code of Conduct, Procedures and Guidelines (500-1-1), Learner Appeals (500-1-12), Attendance (500-1-10), Grading (500-1-6), Academic Continuance and Graduation (500-1-5), and Electronic Communications (300-2-13). Audio or video recording of lectures, labs, seminars, or any other teaching and learning environment by learners is allowed only with consent of the instructor as part of an approved accommodation plan. Recorded material is to be used solely for personal study and is not being used or distributed without prior written consent from the instructor.

Turnitin:

Students may be required to submit their course work to Turnitin, a third-party service provider engaged by BVC. Turnitin identifies plagiarism by checking databases of electronic books and articles, archived webpages, and previously submitted student papers. Students acknowledge that any course work or essays submitted to Turnitin will be included as source documents in the Turnitin.com reference database, where it will be used solely to detect plagiarism. The terms that apply to a student's use of Turnitin are described on Turnitin.com.

Online Exam Proctoring:

Examinations for this course may require proctoring through an online proctoring service. Online proctoring enables online exam taking within a controlled and monitored environment, thereby enhancing academic integrity. Online proctoring may occur through a variety of methods, including but not limited to:

a. live online proctoring where a remote invigilator authenticates identity and observes completion of an exam using specialized software and recordings;
b. automated proctoring where the exam session is recorded and AI (artificial intelligence) analyzed;
c. browser lockdown that limits access to other applications, websites, copying, printing, screen capture and other functions; or
d. a combination of both live/automated proctoring and browser lockdown.

Course instructors will review recordings, analyses, and data obtained through online proctoring for academic integrity infractions. It is the student's responsibility to meet the technical, software, location, and identity verification requirements necessary to enable online proctoring.

Further details of these policies are available in the Academic Calendar and on the Bow Valley College website, bowvalleycollege.ca.

Learners are encouraged to keep a copy of this course outline for future reference.
