## COURSE DESCRIPTION

This course invites students to explore out-of-school care for children ages 5–12 through the lens of co-learning and co-planning, emphasizing collaborative curriculum design that honours children's voices, interests, and cultural identities. Grounded in an ecological understanding of how early learning connects with broader educational systems, students examine child development across middle childhood and how relationships among children, educators, families, and communities foster belonging. The course highlights the importance of social and emotional development, inclusive and child-centred environments, and responsive pedagogy that supports holistic growth.

The terms that apply to a student's use of Turnitin are described on Turnitin.com.

**Online Exam Proctoring:**

Examinations for this course may require proctoring through an online proctoring service. Online proctoring enables online exam taking within a controlled and monitored environment, thereby enhancing academic integrity. Online proctoring may occur through a variety of methods, including but not limited to:

a. live online proctoring where either the course instructor, a representative of Bow Valley College, or a remote invigilator authenticates identity and observes completion of an exam using specialized software and recordings;
b. automated proctoring where the exam session is recorded and AI (artificial intelligence) analyzed;
c. browser lockdown that limits access to other applications, websites, copying, printing, screen capture and other functions; or
d. a combination of both live/automated proctoring and browser lockdown.

Course instructors will review recordings, analyses, and data obtained through online proctoring for academic integrity infractions. It is the student's responsibility to meet the technical, software, location, and identity verification requirements necessary to enable online proctoring.
