DATA9404 Visualizing Data and Insights

COURSE DESCRIPTION

A key role of an analyst is to present insights in a meaningful and compelling way so that stakeholders can fulfill business objectives. In this course, learners apply the principles of visual storytelling to design visualization elements, reports, and interfaces (e.g. dashboards) that meet stakeholder needs and support decision-making. Learners apply a range of techniques to realize any design vision. Learners integrate their technical and communication skills to build and refine simple and complex visualizations to optimize effectiveness. Finally, learners close off a project, ensuring that decision-makers have what they need to make decisions.

REQUISITES	None
EQUIVALENTS	Complete the following courses: • DATA3410 - Data Visualization I (3) • DATA3411 - Data Visualization II (3)
CREDITS	0
HOURS	50
ELIGIBLE FOR PLAR	No
ZERO TEXTBOOK COST	Yes

COURSE COMPETENCY

COMPETENCY TITLE

Data Management and Analytics – Visualizing Data and Insights

COMPETENCY STATEMENT

Data Management and Analytics professionals convert data insights into powerful, evidence-based visual narratives, complemented by other communication techniques, to ensure stakeholders can efficiently and effectively translate analysis results into business decisions.

COMPETENCY DESCRIPTION

Data analysts and scientists are required to present insights in a meaningful and compelling way so that stakeholders can fulfill business objectives. In order to facilitate decision making, they must present data, relationships, and recommendations in ways that are intuitive to all stakeholders, regardless of technical background. Data professionals who perform the visualizing data and insights job function incorporate

the principles of visual storytelling to design visualization elements, reports, and interfaces (e.g. dashboards) that meet stakeholder needs and support decision making. They apply a range of techniques to realize any design vision, integrating their technical and communication skills to build and refine simple and complex visualizations to support timely and effective decision making. Data visualization bridges the gap between the data professional and the organizational decision maker, making the visualization data and insights job function an in-demand competency for anyone working in a business-facing data analysis role.

The Visualizing and Presenting Insights competency makes up part of the Data Management and Analytics job profile along with:

- Designing Data Projects
- Acquiring and Wrangling Data
- Performing Data Analysis

COURSE LEARNING OUTCOMES

Bow Valley College is committed to ensuring our graduates can demonstrate their abilities in key areas that will make them effective citizens and encourage their development as lifelong learners. In addition to the discipline-specific skills that learners acquire in their programs, the College has identified ten learning outcomes.

College-Wide Outcomes:

1. Communication
2. Thinking Skills
3. Numeracy and Financial Literacy
4. Working with Others
5. Digital Literacy
6. Positive Attitudes and Behaviours
7. Continuous Learning
8. Health and Wellness Awareness
9. Citizenship and Intercultural Competence
10. Environmental Sustainability

#	COURSE LEARNING OUTCOME(S)	COLLEGE WIDE OUTCOMES SUPPORTED
1	Design visualizations to meet business objectives and stakeholder needs by applying critical thinking and problem-solving skills.	1, 2, 3, 5, 6
2	Create a dashboard to present a meaningful and cohesive narrative by demonstrating visual and written communication skills.	1, 2, 3, 5, 6
3	Present insights to stakeholders by demonstrating attention to detail and communication skills.	1, 2, 3, 5, 6

LEARNING PATHWAY

**The time it takes learners to demonstrate competencies will vary. An example of a suggested schedule for learning and development is shown below. Learners will need to plan out their assessment attempts within their course. For additional information, please consult the Course Offering Information in Brightspace.*

WEEK/HOURS	LEARNING AND DEVELOPMENT PLAN
1	Review performance demonstration and learning pathway; Install Tableau
2	Performance Demonstration; Success Plan
3	Define the user experience
4	Select the best data to tell the story
5	Select the best data to tell the story
6	Choose visualization types
7	Choose visualization types
8	Create visualizations
9	Reading Week
10	Combine visualizations to make a dashboard
11	Publish and share the dashboard
12	Create a summary presentation and report
13	Dashboard
14	Presentation and Report
15	Performance Demonstration

PERFORMANCE STANDARDS

Successful demonstration of all learning outcomes is required to pass this course. This course may be part of a competency or larger program of study.

Please consult with the program area or the Bow Valley College website for completion requirements.

GRADING SCHEME

Symbol	Description	Grade Point Value
MAST	Mastery	4.00
COMP	Competent	3.00
DEVL	Developing	N/A
F	Fail	0.00
W	Withdraw	N/A

REQUIRED LEARNING RESOURCES

Additional learning resources may be found in the Course Offering Information or in Brightspace.

ADDITIONAL INFORMATION

Knaflic, C. (2019). *Storytelling with data: Let's practice*. Wiley.
ISBN: 9781119621492 print copy

ISBN: ISBN: 9781119621508 ebook

Additional information may be found in the Course Offering Information or in Brightspace.

ACADEMIC ACCOMMODATIONS

Learners with a disability (learning, physical, and/or mental health) may qualify for academic and exam accommodations. For more information, or to apply for accommodations, learners should make an appointment with Accessibility Services in the Learner Success Services (LSS) Department. Accessibility Services can also assist learners who may be struggling with learning but do not have a formal diagnosis. To make an appointment visit LSS on the first floor of the south campus or call 403-410-1440. It is the learner's responsibility to contact Accessibility Services and request academic accommodations. For more information, please visit our website at http://www.bowvalleycollege.ca/accessibility.

INSTITUTIONAL POLICIES

Bow Valley College is committed to the highest standards of academic integrity and honesty. Learners are urged to become familiar with and uphold the following policies: Academic Integrity (500-1-7), Learner Code of Conduct, Procedures and Guidelines (500-1-1), Learner Appeals (500-1-12), Attendance (500-1-10), Grading (500-1-6), Academic Continuance and Graduation (500-1-5), and Electronic Communications (300-2-13). Audio or video recording of lectures, labs, seminars, or any other teaching and learning environment by learners is allowed only with consent of the instructor as part of an approved accommodation plan. Recorded material is to be used solely for personal study and is not being used or distributed without prior written consent from the instructor.

Turnitin:

Students may be required to submit their course work to Turnitin, a third-party service provider engaged by BVC. Turnitin identifies plagiarism by checking databases of electronic books and articles, archived webpages, and previously submitted student papers. Students acknowledge that any course work or essays submitted to Turnitin will be included as source documents in the Turnitin.com reference database, where it will be used solely to detect plagiarism. The terms that apply to a student's use of Turnitin are described on Turnitin.com.

Online Exam Proctoring:

Examinations for this course may require proctoring through an online proctoring service. Online proctoring enables online exam taking within a controlled and monitored environment, thereby enhancing academic integrity. Online proctoring may occur through a variety of methods, including but not limited to:

a. live online proctoring where a remote invigilator authenticates identity and observes completion of an exam using specialized software and recordings;
b. automated proctoring where the exam session is recorded and AI (artificial intelligence) analyzed;
c. browser lockdown that limits access to other applications, websites, copying, printing, screen capture and other functions; or

d. a combination of both live/automated proctoring and browser lockdown.

Course instructors will review recordings, analyses, and data obtained through online proctoring for academic integrity infractions. It is the student's responsibility to meet the technical, software, location, and identity verification requirements necessary to enable online proctoring.

Further details of these policies are available in the Academic Calendar and on the Bow Valley College website, bowvalleycollege.ca.

Learners are encouraged to keep a copy of this course outline for future reference.

Collection of Personal Information:

This course, including your image and voice, may be recorded and made available to you and other students taking the course section. By attending the class(es) online or in person, you consent to the collection of your personal information. If you do not wish to be recorded, please contact your instructor before starting the course/class to discuss alternative arrangements.

You may use the recordings only for educational purposes and you must not copy, share, or use the recordings for any other purpose without the instructor's express permission.

Your personal information is collected in accordance with section 33(c) of the Freedom of Information and Protection of Privacy Act (Alberta) to deliver academic programming, support learner flexibility, promote universal design for learning principles, and for purposes consistent with the course activities and outcomes. If you have any questions about the collection, disclosure, use, or protection of this information, please contact the College's Access and Privacy Officer at foip@bowvalleycollege.ca.
